Import the packages and load the saved model

Team Id	PNT2022TMID33016
Project Name	Real time communication for specially abled powered by AI

Import libraries:

```
from tensorflow.keras.models import load_model
from tensorflow.keras.preprocessing import image
import numpy as np
import cv2
```

Load the model:

```
model = load_model('/content/drive/MyDrive/zxcvb.h5')
```
